President's Message

John Hornbuckle

President, Greater Miami Shores Chamber of Commerce

I am both happy and honored to serve as the new president of the Greater Miami Shores Chamber of Commerce. There are a lot of new and exciting things happening in the Shores and surrounding Villages, and I look forward to keeping the momentum going.

The Chamber recently held our Annual Retreat, to plan and set goals for 2019. We are working hard to find new ways to provide more value to our members, through new programming, events, and added Chamber features.

February is the best time of the year in South Florida, so check out upcoming events such

as "Caribbean Night" at Plaza 98 and Biscayne Park Art Show & Farmers Market, both happening on February 9th. For more information on these events, and others in the community, check out the Chamber calendar at: www.miamishores.com.

Finally, if you patronize a business you saw in the Egret, or on our website, please make sure to say "I saw you in the Egret!"

I look forward to working with Executive Director, Megan Gerstel, and our entire Board of Directors...and to seeing you around the Villages!

Miami Shores Country Club

It seems every Shores' resident has celebrated a family, social or sporting event at the Miami Shores Country Club, or perhaps several! From life cycle events like weddings, bar/bat mitzvahs, communions and quinces, to traditional holidays like Thanksgiving, New Year's Eve and Mothers/Fathers Day, the Country Club has been the go-to venue for the community.

Built in 1939 by the Village of Miami Shores, under the leadership of Mayor John J. Lindsay and council, and with assistance from the Federal Works Progress Administration, the great depression work program, the Club very soon became the center of the Village's social life. The original Southern Revival Clubhouse encompassed what is now the lobby and foyer, Bayshore room, offices and kitchen. As the Village grew, so did the Clubhouse, building several additions through the years and culminating in 1959 with the building's current footprint. The most recent renovation occurred in 2018, with new, contemporary furnishings throughout the Clubhouse.

Generations have grown up taking both golf and tennis lessons from the pros, and as they matured, ending the day at the 19th hole. The classic 18-hole golf course was

designed by Red Lawrence, has hosted the Florida State Open Championship, and its fairways have been traversed by such notables as Joe DiMaggio, Bob Hope and Lee Trevino.

Previously, the Club operated as a private facility that was open only to members, until 2008 when it was opened to the public. Today the golf course, banquet facility, restaurant and tennis courts are abuzz with activity, drawing patrons from near and far.

Each year the Club hosts dozens of weddings and hundreds of special events, ranging from the annual Mayor's Gala to Corporate and charity events like golf and tennis tournaments, and graduations. Two more recent additions to the annual schedule are the Pelican Harbor fundraising gala and the Miami Shores Chamber of Commerce Golf Tournament!

As a committed member of the community, The Club is an active participant in many of our Village's annual events including Green Day, Unity Day, July 4th and Plaza 98.

Down to Business, continued on page 6

The restaurant serves lunch 7 days a week, dinner service on Thursday and Friday evenings, and features a spectacular Sunday brunch. Executive Chef Emilio Feijoo, and Restaurant Chef Javier Diaz, have created an exciting American-Bistro

dinner menu with creative Friday night specials to complement the live music.

The golf course is open 365 days a year from dawn to dusk, with the lighted driving range closing at 9PM.

The Club is open Mondays/

Tuesdays/Wednesdays/ Sundays from 11AM-7PM (Lunch is served from 11AM-6PM), Thursdays and Fridays from 11AM-10PM. Miami Shores Country Club, 10000 Biscayne Blvd., 305- 795-2360, www.miamishoresgolf.com.

SOUTH FLORIDA PEOPLE OF COLOR PRESENTS

EXODUS

THE MOVEMENT OF A PEOPLE

1619-2019
Commemorate 400 Years of Perseverance

Written by: Roni Bennet, Art by: Ithan Payne

“You will remember that it was in the year 1619 that the first Negro slaves landed on the shores of this nation. They were brought here from the soils of Africa. Unlike the Pilgrim Fathers, who landed at Plymouth a year later, they were brought here against their will. Throughout slavery, the Negro was treated in a very inhuman fashion. He was a thing to be used rather than a person to be respected. He was merely a depersonalized cog in a vast plantation machine.” - Rev. Martin Luther King Jr., 1966.

February marks Black History Month, a tribute to African-American men and women who have made significant contributions to America and the rest of the world in the fields of science, politics, law, sports, the arts, entertainment, and many other fields. While Black History Month is synonymous with prominent figures such as Martin Luther King Jr., Rosa Parks, Muhammad Ali, and Maya Angelou, to name a few, there are countless other African-Americans who've made a profound impact in history.

Last year the South Florida People of Color (SFPoC) commissioned a Hidden “Historical” Figures Exhibit that showed the central role African Americans played in shaping our nation from the beginning, even though these figures have long been neglected, ignored, and even actively suppressed in our history. The exhibit displayed such figures as Garrett Morgan the inventor of the Traffic light and gas mask; Dr. Jane Wright, developer of Chemotherapy and Shirley Jackson,

developer of fiber optics cable, caller id and call waiting, just to name a few.

This year the SFPoC will commemorate 400-year of perseverance, and focus on Black Migrations emphasizing the movement of people of African descent to new destinations and social realities.

Virginian John Rolfe, writing in August 1619, recorded the first instance of Africans being brought to the English colony of Jamestown, Virginia, and sold into servitude in the land that would become known as the United States of America. While these were not the first Africans to step foot on the North American continent (as African sailors and explorers traveled with Spanish expeditions across the Atlantic), the landing in Virginia in that year portended the innocuous beginning of something disastrous. From this first trickle of human trafficking precipitated by forced migration, a flood would develop, and by 1865, there would be some 4 million people of African descent held in bondage. As Dr. King reminded us, the Africans landed in Jamestown before the storied Pilgrims made it to Plymouth Rock. This point of chronology illustrates a point that often needs reiterating: that the history of Africans in America is inseparable from the fabric of the nation. The contributions of Black people to the United States, even from its infancy, represent a consistent thread in the development of the nation.

ST. ROSE OF LIMA SCHOOL The St. Rose of Lima boys' varsity basketball team has taken the All Catholic Conference by storm. The team finished their regular season 9-1 in early December with only one loss to St. Thomas the Apostle. The boys then moved onto the ACC 2A Division Championship where

they met their adversary, St. Thomas the Apostle once again. Coming up short the Cardinals finished 2nd place overall in their division. However, their season didn't end there. Because of their record they were the 4th seed in the ACC Tournament of Champions where again they came face to face with St. Thomas the Apostle in the finals. Due to the nature of the event, the immense talent on both teams, and the excitement, the game was played at Msgr. Edward Pace High School. Both schools filled the gym and the energy was electrifying! St. Rose was down by 2 at halftime and up by 2 at the end of the third quarter. Both teams fought hard and in the end St. Rose of Lima made history as the 2019 ACC Tournament of Champions winner! Congratulations to Coach Patrick Young, Coach Daniel Ocampo, and the team

on an amazing season and for never giving up!

Exodus, Continued from page 7

The forced migration represented by the Transatlantic Slave Trade was the first of many migrations that African people in North America would experience.

After the end of the bloody U. S. Civil War in 1865, 4 million African Americans were liberated from enslavement. Within a few decades, after their dreams of inclusion in southern society were dashed, they fled a world where they were restricted to the most menial of jobs, underpaid if paid at all, and frequently barred from voting. Between 1880 and 1950, an African-American was lynched more than once a week for some perceived breach of the racial hierarchy. The advent of another military conflict, this time World War I, would spark the next major wave of transition for this population. Known as the Great Migration, between the decades of the 1910s to 1970, an estimated 6 million Black people would leave their ancestral homes in the South in search of opportunity and inclusion in the North, Midwest, and West only to discover upon arriving in those areas that the racial caste system was not Southern but American.

Significant numbers of Caribbean immigrants also entered the US during this same period seeking economic opportunity. Many of them settled in cities in the urban North, from New York to Chicago to Detroit, bringing with them their island culture, and adding yet another layer to the African diaspora living and working in North America.

During Black History Month, SFPoC will highlight the trials and tribulations as well as the contributions of Africans and African Americans. It will be our moment to embrace the West African concept of Sankofa, which teaches us that we must go back to our roots in order to move forward.

COMPREHENSIVE STROKE CENTER

at North Shore Medical Center

A Higher Level of Stroke Care

With some of the latest technology in healthcare, we have *redesigned* North Shore Medical Center to provide a higher level of care with confidence. Part of the redesign includes our commitment to constantly improve the medical care and services we provide to our community.

WHAT DOES A COMPREHENSIVE STROKE CENTER MEAN FOR OUR COMMUNITY?

By becoming a Comprehensive Stroke Center, North Shore Medical Center will now be able to provide advanced stroke treatment without having to transport the patient outside of the area. Approximately 1.9 million neurons die each minute when stroke is left untreated. Time is critical when someone is having a stroke, and faster treatment may result in less brain cell loss for a better recovery and less disability.

At North Shore Medical Center,
your health is our priority.
